

EX1 - Internet Technologies 2015-2016

- Read the following HTML/CSS tutorials
 - <http://www.htmldog.com/guides/htmlbeginner/>
 - <http://www.htmldog.com/guides/htmlintermediate/>
 - <http://www.htmldog.com/guides/cssbeginner/>
 - <http://www.htmldog.com/guides/cssintermediate/>
 - <http://www.htmldog.com/guides/htmladvanced/>
 - <http://www.htmldog.com/guides/cssadvanced/>
 - All the 'javascript beginners tutorials on <http://htmldog.com/guides/javascript/>
 - Add a **read.txt** file that contains a declaration that you've read the tutorials above. We trust you
- Create a file (**profile.html**) that looks like the screenshot below .

Username: Password:

First Name , Last Name

(ID)

Welcome to my personal website...

Some info about me in 2-3 paragraphs

<table with 3 links to

Favorite websites, whereas

The first column in each raw is the link/name and the second is the reason why you like this website so much>

Something amusing here..

- Notice: You are not allowed to use any HTML-editing software (use notepad/notepad++/textpad). you are allowed to add more files like pics. We will use chrome to check your page directly from the hard drive

- This Ex should be done individually
- Add all the files to a zip file, The zip file name should be <yourId>.ex1.zip
- **Submission by : 18/11/2015 23:50**
